

Angular Service Worker implementation comes in an additional module

```
$ npm install @angular/service-worker
```

The screenshot shows a GitHub pull request interface. At the top, the repository is identified as 'angular / angular'. On the right, there are buttons for 'Watch' (2,676), 'Unstar' (28,328), and 'Fork' (7,096). Below these, navigation tabs include 'Code', 'Issues' (1,794), 'Pull requests' (255), 'Projects' (6), and 'Insights'. The main content area displays the pull request title: 'feat(service-worker): introduce the @angular/service-worker package (#...19274)'. A 'Browse files' button is located to the right of the title. The description of the pull request states: 'This service worker is a conceptual derivative of the existing @angular/service-worker maintained at github.com/angular/mobile-toolkit, but has been rewritten to support use across a much wider variety of applications.' It then lists the entrypoints: '@angular/service-worker: a library for use within Angular client apps to communicate with the service worker.', '@angular/service-worker/gen: a library for generating ngsw.json files from glob-based SW config files.', '@angular/service-worker/ngsw-worker.js: the bundled service worker script itself.', and '@angular/service-worker/ngsw-cli.js: a CLI tool for generating ngsw.json files from glob-based SW config files.' Below the description, it shows the branch 'master (#19274)' and the version '5.0.0-rc.0'. The commit information at the bottom indicates that 'alxhub' committed with 'vicb' 3 days ago, with 1 parent commit '7c1d3e0' and the commit hash 'd442b6855ff114b59dd3d299110d01be84a20ae3'. At the very bottom, it shows 'Showing 63 changed files with 6,722 additions and 8 deletions.' and buttons for 'Unified' and 'Split' views.

feat(service-worker): introduce the @angular/service-worker package (#...19274) [Browse files](#)

This service worker is a conceptual derivative of the existing @angular/service-worker maintained at github.com/angular/mobile-toolkit, but has been rewritten to support use across a much wider variety of applications.

Entrypoints include:

- @angular/service-worker: a library for use within Angular client apps to communicate with the service worker.
- @angular/service-worker/gen: a library for generating ngsw.json files from glob-based SW config files.
- @angular/service-worker/ngsw-worker.js: the bundled service worker script itself.
- @angular/service-worker/ngsw-cli.js: a CLI tool for generating ngsw.json files from glob-based SW config files.

master (#19274) 5.0.0-rc.0

alxhub committed with vicb 3 days ago 1 parent 7c1d3e0 commit d442b6855ff114b59dd3d299110d01be84a20ae3

Showing 63 changed files with 6,722 additions and 8 deletions. [Unified](#) [Split](#)

- * Service worker generation
 - * Declarative JSON-based setting instead of javascript
 - * Push notifications / Lifecycle events
- (wrap API in a service that you can listen to Observables)
